EM Systems' Software Available on New York State Contract through ASAP Software

Amherst, NY, 06/15/07 – EM Systems, Inc. has recently teamed with ASAP Software to make their software products available through the New York State Office of General Services (OGS), Procurement Services Group (PSG). This vehicle is also available for professional services including installation and training.

EM Systems' Law Enforcement Management System (LEMS) is now in its third generation of development and consists of a complete set of Windows-based programs utilizing an Oracle high-end database server. The LEMS applications include: Computer Aided Dispatch (CAD), Records Management System (RMS), Jail Management System (JMS), Arrest/Booking, Mobile Data System (MDS) and Automatic Vehicle Location (AVL), as well as numerous customized application modules.

“At EM Systems, we understand that sharing information is a critical component of public safety,” said Elias Sarraf, President of EM Systems. “We are working to provide our clients access to contractual vehicles needed to obtain software to support their public safety systems.”

The PSG provides centralized statewide contracts for software and other commodities, services and technologies for use by all state agencies, political sub-divisions (such as municipalities, towns, villages, etc.), and others authorized by law to use state contracts. Additional information about the OGS can be found at: www.ogs.state.ny.us.

ASAP Software provides IT products and services to corporations and government agencies headquartered in North America and Europe. Since its founding in 1984, the company has helped thousands of clients evaluate, purchase, deploy, and manage their software and hardware assets. ASAP offers volume license management expertise, the industry's leading technology products, and innovative technology. ASAP Software is a subsidiary of Corporate Express, one of the world's leading suppliers of office products. For more information, visit www.asap.com.

EM Systems, Inc., headquartered in Amherst, NY, provides public safety software, mobile data systems, computer consulting services, and custom programming. EM Systems has been developing integrated public safety systems since the early 1990s, teaming with local public safety agencies to create highly intuitive and dynamic solutions. Additional information about EM Systems and their products is available at: www.em-sys.net.
