EM Systems Awarded IT Services Backdrop Contract for the State of New York

Amherst, NY, 12/21/07 – EM Systems, Inc. announced today that it was awarded a backdrop contract for Information Technology (IT) Services for the State of New York (Contract #CMT328A). The contract, awarded by the New York State Office of General Services (OGS), is intended to provide services related to the computer systems of OGS Authorized Users. Application development services included under this contract include consulting, systems integration, training services and on-going services—including maintenance and support.

“With the New York State Backdrop Contract, EM Systems continues to provide our clients with contract vehicles to supply integrated justice and public safety solutions,” said Elias Sarraf, President of EM Systems. “EM Systems teamed with ASAP Software earlier this year to provide our standard software solutions under ASAP’s state contract. This backdrop contract provides us the ability to work with our clients to customize and enhance those solutions.”

EM Systems’ Law Enforcement Management System (LEMS) is now in its third generation of development and consists of a complete set of Windows-based programs utilizing an Oracle high-end database server. The LEMS applications include: Computer Aided Dispatch (CAD), Records Management System (RMS), Jail Management System (JMS), Arrest/Booking, Mobile Data System (MDS) and Automatic Vehicle Location (AVL). EM Systems also provides numerous additional application modules including an evidence/property module with bar coding, crime analysis and mapping, document imaging, messaging and chat applications, parking, personnel, etc. [Click here for a list of modules.](#)

The OGS provides centralized statewide contracts for software and other commodities, services and technologies for use by all state agencies, political sub-divisions (such as municipalities, towns, villages, etc.), and others authorized by law to use state contracts. Additional information about the OGS can be found at: www.ogs.state.ny.us.

EM Systems, Inc., headquartered in Amherst, NY, provides computer consulting services, custom programming, public safety software, and mobile data systems. EM Systems has been developing integrated public safety systems since the early 1990s, teaming with local public safety agencies to create highly intuitive and dynamic solutions. Additional information about EM Systems and their products is available at: www.em-sys.net.
